We want a hustling agent to take care of the sale of the Leader Washer here. The right person will get a good living from the start. We pay a salary outright for the first few weeks if you want it that way. No need applying unless you can give all your energy to the work and at least half your time. There are no schemes about this offer. We mean just what we say and have good permanent place for the right person, man or woman. There can be but one agent in a town, so if you're interested and in dead earnest, write us today. To save time, send along references from the editor or some other responsible person. Leader Washer Co., Bay City, Mich.

The Reading Table.

The reading table in the high school room has some very choice magazines such as the Outlook, Century, Review of Reviews, Public Opinion, Everybody's Magazine and college exchanges i. e. Almanac, Echo and Normal College News. In no other way can we keep in touch with the events of the day or put in good reading in the reach of so many persons as providing a reading table for the students. At the end of the year these magazines are bound and placed in library to be used for further reference. They aid the students in preparing for current events, debates, history, etc., and afford a valuable medium through which current history can be recorded and preserved.

Debating Club Notes.

The meeting of the Alma High School Debating Club last Wednesday night was attended by a larger crowd than usual. Besides most of the members being present, we were honored by a visit from our old school associates and friends, Edward Titus, Ralph Watson, Roy McGrath and Elmer Pettijohn. The debate between Verne Johnson and Charley Hulse on the question, resolved, "That Football is More Beneficial than Track Work" resulted in a close victory for Mr. Johnson, who had the negative side of the argument. The debate was both interesting and instructive and was highly commended by the critic. After twenty minutes' parliamentary practice, the critic's report was presented by Prof. Rockwell. Again our mistakes as well as our good qualities were brought up before us, although the former took by far the most time. Those that come on for debate next Wednesday night, March 22, are Max Ewers and John Dunham. The debate bids fair to be very interesting.

WHAT IS CATARRH?

Hymel Cures this Common and Disagreeable Disease.

Hymel cures catarrh by the simple method of breathing it into the air passages and lungs. It kills the germs of the catarrhal poison, heals and soothes the irritated mucous membrane, restores the blood with the oxygen and kills the germs present there, effectually driving this disease from the system.

If you have any of the following symptoms, catarrhal germs are at work somewhere in the mucous membrane of the nose, throat, bronchial tubes or tissues of the lungs.

offensive breath
dryness of the nose
pain across the eyes
pain in back of the head
tendency to take cold
burning pain in the throat
hawking to clear the chest
cough
itching in side
loss of strength
spasms of coughing
cough short and hacking
loss of sleep
cough worse nights and mornings
loss in vital force
a feeling of tightness across the upper part of the chest

Hymel will cure the disease, destroy activity of all germ life in the respiratory organs, enrich and purify the blood with additional oxygen, and after a few days use of this treatment the majority of these symptoms will have disappeared. In a few weeks the cure will be complete.

Catarrh or catarrhal colds cannot exist when Hymel is used. This is a strong statement, but Chas. Rhodes emphasizes it by agreeing to refund your money if Hymel does not cure.
